WIDEVIEW®
CONFIDENCE BOOST

NEW!
FOR 2020

An enhanced reader lens to reduce visual fatigue

WIDEVIEW CONFIDENCE BOOST has been specifically developed for non-presbyopes who experience eye strain from constant viewing of objects at near distances like books and computer screens.

There is an extra power boost in the near vision region of the lens. The lenses offer higher visual quality and facilitate faster focus and reading of small details on digital screens. The lenses are created using Smart Add Technology.

PRODUCT BENEFITS

- **Reduced visual fatigue**
- Available in **four different power boosts**: 0.25D, 0.50D, 0.75D & 1.00D
- **High quality** features in the near vision zone thanks to **Smart Add**
- High precision and high personalisation due to **Digital Ray-Path® technology**
- **Clear vision** in every direction
- Oblique **astigmatism reduced**
- **Variable inset**: automatic and manual
- Frame shape **personalisation available**

IDEAL PRODUCT FOR:
