

Bespoke lenses, tailored to your patient

WIDEVIEW CONFIDENCE freeform progressive lenses represents the ultimate in truly personalised optics using Digital Ray-Path® technology.

Designed bespoke for each wearer, WIDEVIEW CONFIDENCE takes the patients prescription, lifestyle and measurements such as BVD, pantoscopic tilt and dihedral angle into account. The perfect choice if your patient wants a personalised solution with a superior quality lens.

PRODUCT BENEFITS

- Varied fitting depths of 14mm - 25mm
- A bespoke lens designed around the prescription
- Unsurpassed clarity for all frame types
- Excellent vision at any distance
